Product Care

- Wood Care: Wipe spills quickly with a clean soft cloth. Some types of paper towels may leave marks and are not recommended. After wiping spills and during normal maintenance, use a non-silicone-based furniture polish on all wood surfaces. Periodic tightening of the bolts is recommended depending on use
- Mattress Care: Use a clean damp cloth with warm water and a mild detergent to remove any unsightly surface stains on the mattress. Test a small hidden area first to make sure the soap you're using does not further stain or change the color of the mattress. Avoid soaking the mattress as this may cause damage. Periodic vacuuming of the mattress is recommended.
